

♪ Nurturing Babies' Musicality ♪

A six week course for newborn to crawling

Based on the latest research, each 50 minute session has three distinct elements:

1. An entertaining musical session to engage baby, with ideas to develop at home
2. A weekly discussion focus to teach you about your baby's capabilities
3. Relaxed time to form lasting friendships for you and your baby

See overleaf for our course outlines and booking details.

"Very friendly and educational.

I hadn't realised that what we did as a baby was the foundation for later years."

Based on current research, our courses will answer these questions and more:

- What can my newborn already do musically?
- How can I nurture their musical development?
- What does research tell us?
- Can every child learn to sing in tune?
- How might I help my child later with instrumental playing?

Courses developed by Andrea Lee
(MA, Education, Early Years)
